Add the company description, legal address, city and postal code. “Verified company” and “Active” controls may depend on your permissions; if SilkWayGo administrators manage them, leave them unchanged.

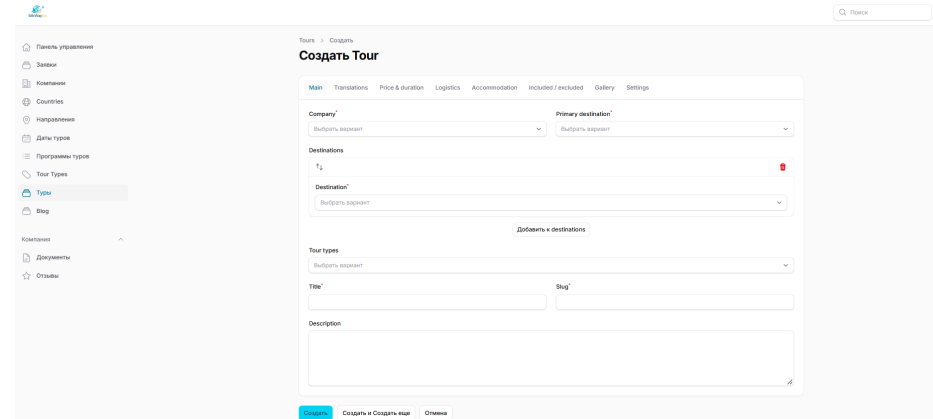

Tip: Slug is a short Latin-character identifier used in URLs (for example, silk-road-travel).

7. Create a tour

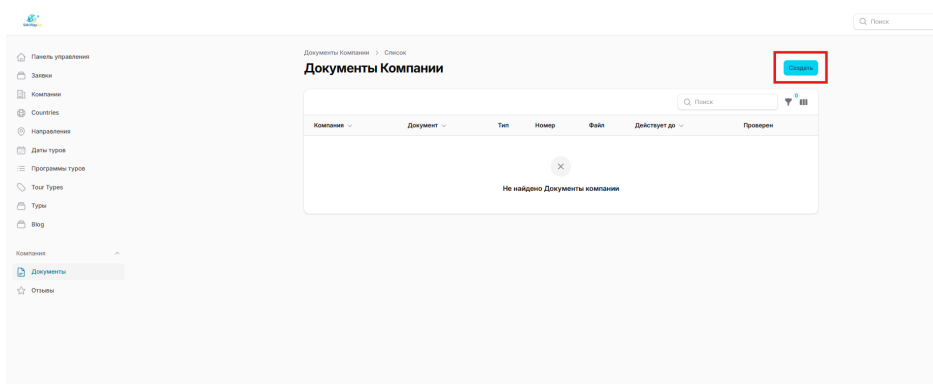

Open “Тур” and click “Создать”. On Main select the company, primary destination, additional destinations and tour type, then enter Title, Slug and description. Complete the remaining tabs for translations, price & duration, logistics, accommodation, included/excluded items, gallery and settings.

9. Add tour dates

The screenshot shows the 'Создать Tour Date' (Create Tour Date) form in the SilkWayGo interface. The form is located in the main content area, with a breadcrumb trail 'Tour Dates > Создать'. On the left, there is a sidebar menu with various navigation options. The form itself contains several input fields and a toggle switch. The 'Tour' field is a dropdown menu with the placeholder 'Выбрать вариант'. The 'Start date' field is a date picker showing 'ДД.ММ.ГГГГ'. The 'End date' field is also a date picker showing 'ДД.ММ.ГГГГ'. The 'Total seats' field is a text input with the value '0'. The 'Booked seats' field is a text input with the value '0'. Below this field, there is a note: 'Количество занятых мест рассчитывается автоматически по заявкам.' (The number of booked seats is calculated automatically by requests). The 'Currency' field is a dropdown menu with the value 'UZS'. To the right of the form, there is a toggle switch labeled 'Active' which is currently turned on. At the bottom of the form, there are three buttons: 'Создать' (Create), 'Создать и Создать еще' (Create and Create more), and 'Отмена' (Cancel).

In “Даты туров”, create a date: select the tour, enter start/end dates, total seats, price and currency. Booked seats are calculated from booking requests. Keep Active enabled when the date is available for booking.

Before publishing, check

- ✓ Company profile contains accurate and current information.
- ✓ Business email and phone are reachable.
- ✓ Required company documents are uploaded.
- ✓ Tour description, destination, type, price, duration and gallery are complete.
- ✓ Current departure dates and seat availability are configured.
- ✓ After saving, check how the offer appears on SilkWayGo.

Important - Use accurate company information only. Some labels in the partner dashboard may still appear in English or Russian. If a feature is not available to your account, contact SilkWayGo support.

Done! Once your company profile, documents and tours are complete, your business is ready to work with SilkWayGo.
